

VIBRANT

INSTITUTE OF ACADEMICS

A MESSAGE TO DEAR STUDENTS

The real question is not whether you are a rose, or a lotus flower, or just an unnamed grass flower. The real thing is that the grass flower has come to actualize its potentiality, just as the rose flower has actualized its potentiality, just as the lotus flower has actualized its potentiality.

The real thing is actualization of the seed that you are carrying within you; that makes you great. Nature has given to you all some unique potentiality, It is your responsibility - to bring it to flowering, to its ultimate growth. You will be contented, you will be grateful, and you will be humble - humble before this vast existence, grateful because it has not sent you empty, it has sent you with some potential to work upon.

Best of luck to you.
May you have a wonderful future filled with blessings and success.

At VIA

SPECIAL WORK ON FOUR CORE SKILLS

Listening 01

It is first language skill we acquire in our native language. As we know, there is a direct relationship between listening and concentration. The better your listening, the better your concentration. At **VIA** special focus will be given to improve the concentration and listening skills of students.

02 **Speaking**

It is the second language skill we acquire in our native language. In today's era, it & very important to have speaking skills. Public speaking is one of the most important and most dreaded forms of communication. At **VIA** special efforts will be made to develop the art of speaking in students.

Reading 03

It is the third language skill we may acquire in our native language. Reading is important because it develops their mind & gives them excessive knowledge and lessons of life. It supports them to recognize the world around them better. It keeps their minds active and enhances their creative ability. At **VIA**, special reading sessions will be organized to improve reading habit among students.

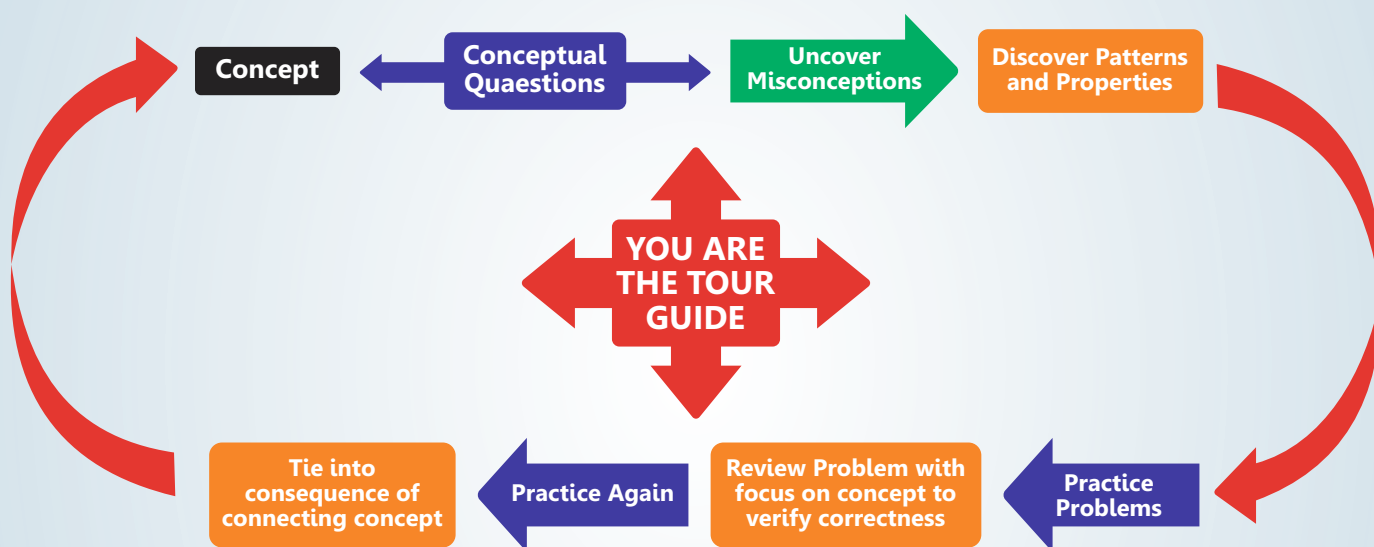

04 **Writing**

It is the fourth language skill we may acquire in our native language. Writing is the primary basis upon which one's learning and intellect will be judged. It also fosters our ability to explain the refine our ideas to other and ourselves. At **VIA**, special guidance will be given to improve writing skills in students and all necessary tools will be provided to improve writing skills, competitions related to writing skills will also be organized among students.

Subject Concept Understanding

At VIA, we are exclusively focused on developing an understanding of basic concepts and their applications. Teachers have to focus on explaining concepts and their applications and it is felt that during preparation of competitive exams very little efforts and time should be spent in memorizing formulas.

This practice is in line with competitive exams culture, where most exam are open book and students are allowed to take their books and exam in classroom. This is in direct contrast to school examinations where students have to remember vast amount of content to do well in exams.

Materials in Practice

The study material is regularly upgraded and every detail is taken care of, be it the changing examination pattern or enhancing analytical and logical abilities of students. There practice materials are designed in a systematic and scientific way that enable the students to develop a complete understanding of concepts and elaborative problems are arranged in a logical set to understand the depth of subjects.

Students are exposed from basic to highly challenging tough problems in the form of study material. Test paper are to sharpen the students problem solving skills, which help them in increasing their self confidence towards their targets of medical and engineering college.

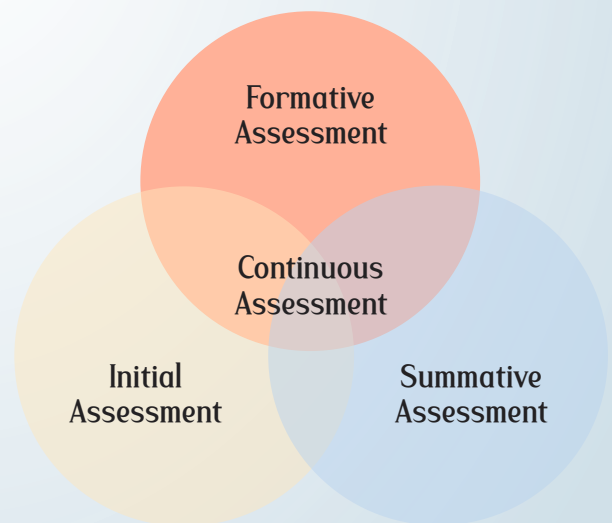

Continuous Assessment...

Our programs and courses are constantly upgraded to ensure that they remain challenging and relevant. At VIA concept, research and development activities are also practiced along with teaching. To instill confidence and competence in students, the institute conducts periodic test at a proper gap and method of cracking examination are discussed frequently. These regular tests give students a chance to rectify their mistakes and build test temperaments. Reports of feed back of the test are sent to the parents by SMS. If students face any problem, counseling is provided to them readily. Students are exposed from basic to highly challenging tough problems in the form of study material and test papers to sharpen their problem solving skills. VIA has modeled it's teaching methodology in consonance with the latest trends

worldwide.

VIA has various test series to help students learn, retain and understand the topics covered in the classroom. Precise simulation of the real examination help students train their nerves, develop a winning strategy and focus on key areas to enhance their chances to clear competitive entrance exams.

Continuous Assessment is the Engine which drives Student Learning.

Doubt Clearing & Practice Session

DOUBT SESSION

As the learning grows confusion comes and confusion acts as a roadblock in learning. If not treated properly on time it may lead to chaos and hamper the development of students. At **VIA**, a special team is dedicated to dissolve roadblocks of the students so that they can have excellent understanding of the subject.

VIA team communicates directly with parents of the students. As the symbiotic cooperation of parents and teachers promotes to increase the self confidence of the students. We inspire the parents of the students to monitor the progress of their ward.

VIA the modern Gurukul is known for its counselling of the students and judging the real potential to crack the entrance exam of different fields. In **VIA**, there is tradition of building trust and apathy among every student with their teachers. Teachers of **VIA** are working not only excel in their academics but to accelerate in terms of overall development.

PRACTICE SESSION

Practice makes a man perfect is a proverb which tells us the importance of continuous practice in any subject to learn anything. There is no alternate to maximum practice and hard work. Knowledge is a big thing but alone it can not take us to our goal, we have to convert our knowledge into action which needs a regular practice.

At **VIA**, we conduct regular practice sessions for each subject at special level for the academic development of your ward. **VIA** practice sessions prove to be a milestone for any school exam, board exam, entrance exam and competition exam. These practice sessions will pave the way for your ward's carrier and will greatly help your child in achieving his goal. At **VIA** practice sessions will be focused toward board exams as well as competition exams.

The difference between “Ordinary and Extraordinary” is Practice.
